

Trash for Technology At Sherwood Forest Elementary

When: Every Friday

Where: Tent by the flagpole

Who: Everyone with an aluminum can

Why: To fund technology in Sherwood Forest

Please bring your aluminum cans to school for recycling. Meet our recycling team at the green and white tent by the flagpole. We will be waiting for you to bring in your bag of cans. Don't forget to remind your family and friends to save their aluminum cans for our school.

The purpose of this effort is to help fund document readers and projectors for each and every classroom. Our students and teachers deserve to have access to the tools of the 21st century.

By recycling our aluminum cans, we will be able to earn money for this project. This plan does not cost our community any money, and at the same time actively involves our children, teachers, and parents to team up to reach a goal.

Thanks,

Teachers for Technology
Sherwood Forest Elementary
