

**High School Graduation
Plan C**

This Graduation Plan will prepare your child for entry into many institutions of higher learning having more stringent admittance requirements. The requirements in this plan exceed those of the Higher Education Coordinating Board (HECB) of the State of Washington, and prepare your child for increased possibilities of receiving financial aid and scholarships including the Byrd Scholarships and the Academic Competitiveness Grants from the Federal Government. In addition, this plan will make your child eligible for the State Scholars Initiative.

(The University of Washington and Washington State University will cover tuition and fees for low-income students who meet certain criteria, including Washington residency.)

This plan contains highly challenging material presented at an accelerated and more intensive pace than the typical college preparatory courses. These courses require advanced reading, writing, verbal, conceptual, and mathematical ability as well as extensive outside preparation.

In order to accomplish this Graduation Plan your child must pass all four parts of the Washington Assessment of Student Learning (WASL) 10th grade exam, (Class of 2011 and later) obtain 23.5* credits including several mandatory classes in English, Mathematics, Science, and complete a 13th year Plan and Culminating Project. (The proposed HECB requirements also include a minimum of 2 years of a Foreign Language and a minimum of 3 years of laboratory Science and Mathematics.) A minimum of 4 Advanced Placement (AP) Courses, the Cambridge Academy, or the International Baccalaureate (IB) program is required for this plan. Students will be required to take the PSAT and SAT subject tests, and encouraged to take the A.C.T. exams.

**Todd Beamer High School credit requirement is 31.*

I wish my student, _____, student ID # _____, to be placed in this program and a schedule developed for him/her that will meet the objectives of this plan. I also wish to be informed if my child wishes to switch plans prior to any

changes that would alter the objectives of this plan.

Signature by Parent/Guardian is required before High School classes can be scheduled.
