

Running Start Parental Information and Consent Form

This information sheet and consent form is to insure that you fully understand the implications of your student participating in the Running Start Program.

Please be aware that **you will not be able to access your student's grades** from the community college unless your student signs a consent form and files it at the college.

Your student's academy principal will sign off on the classes that your student intends to enroll in and can counsel them on graduation requirements. However, we do not get information from the college on what classes students are actually registered for or attended. We only get copies of the transcript after the quarter is completed.

The student is responsible for knowing and completing graduation requirements. We may not have the information necessary to inform you of credit deficiencies in time for your student to recover credits and graduate on time if there is a problem.

If the student is doing part-time Running Start and part-time at Todd Beamer High School, we cannot guarantee that the classes they need will be available at the times of day they need them in order to continue their Running Start classes.

If the student decides to leave the Running Start program and return to Todd Beamer High School after the end of the first quarter in December, they will not be able to return during the first semester and receive credit for classes at Todd Beamer. We also cannot guarantee that the classes they need will be available during second semester as not all classes are taught both semesters. If your student signs up for 2nd semester classes at Todd Beamer and then chooses not to attend because of a conflict with Running Start classes, ***they must contact Todd Beamer and cancel those classes within the first four weeks of our semester or they will receive an "F" in the class and it will show on their transcript and affect their grade point average.***

Please sign this form indicating that you understand the responsibilities incumbent upon your student when they choose to participate in the Running Start Program.
